

Armed Robbery Safety Training

An Armed Robbery event can have a considerable impact on your business, and the health, safety and welfare of those involved in the Robbery.

Allied Risk Solutions in-house training program is designed to integrate operational standards with robbery prevention strategies and look at ways to mitigate risks to establish a proactive workforce environment.

Pre, during and post robbery procedures are taught in this training course. All in-house training is designed specifically to your needs including those of your employees and their workplace.

A review of workplace design and layout, physical security and workplace procedures and protocols can be taken into consideration and incorporated into the staff training in order to make the training more relevant.

This course has been running for a number of years and has been given very positive feedback by attending students.

If your business is exposed to the potential risk of an Armed Robbery, then we offer the face to face solution for groups of 15 or more, or for smaller numbers over a wider geographic area, there is the online training course offering.

For more information on the face to face training course go to <http://www.alliedrisk.com.au/armed-robbery-training>.

Online Armed Robbery Safety Training

The online Armed Robbery Safety Training is basic preparation for any staff member in any business. This is a reduced version of the full face to face Armed Robbery Safety training course.

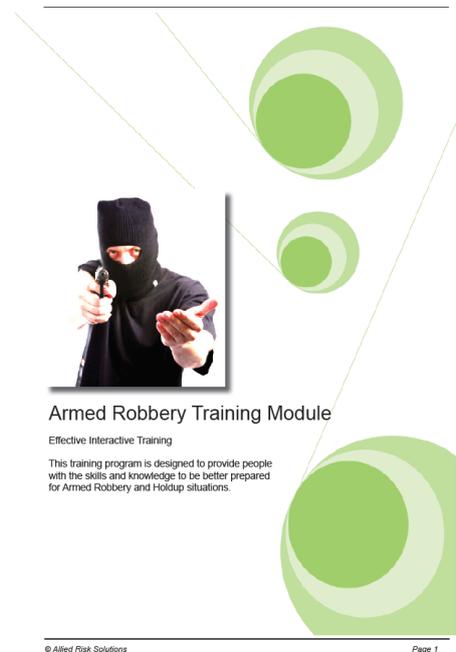

This online Training Course takes about 30 minutes, and cuts out much of the workplace layout concerns and the statistical summaries incorporated into the face to face course.

This training, conducted online over the internet, is designed to provide awareness and an understanding of the events during and after a robbery. The focus is on safety and how to survive the event.

How to prepare for and how to react are covered in a number of informative and practical video presentations, followed up by a comprehensive assessment to ensure the viewer understands the content of the course.

The course is self-paced and students are able to review the content in order to satisfactorily complete the assessment quiz.

For more information and pricing for your venue, please contact info@alliedrisk.com.au or go to
