

Wishart Jewellers

manufacturing jeweller

Established 1953

To: DNA Security Solutions

At Wishart Jewellers we are always looking for ways to improve our Security, both for our staff and our customers.

Your DNA Guardian System is a n effective deterrent in both cost and application. The added bonus being that beca use of the DNA component and it's ability to stay on the criminal's skin for a great deal of time, it also helps the Police with the prospect of a prosecution. Our Industry is constantly being targetted by criminals in the way of hold-ups so Guardian seemed to be the logical system to go with our existing security currently in place.

Yours sincerely,

GRANT WISHART
